

A large pile of scrap tires is shown in a wooded area, extending into the background. The tires are stacked and scattered, illustrating the problem of illegal scrap tire disposal.

If you have more than 500 or less than 10,000 illegal scrap tires on your property, the Missouri Department of Natural Resources can help. Through its new Tire Dump Round-Up program, the department is offering qualified property owners the opportunity to have scrap tires cleaned up free of charge. The program is funded by the state's 50-cent-per-tire scrap fee paid when new tires are purchased in Missouri. Other financial incentive programs are available to those who do not qualify for this program.
